The sixth edition of ELA's top-selling *The Principal's Legal Handbook* is available now, featuring new topics, new editors, new e-versions, and over 60 coauthors who are prominent authorities in their respective fields.

All four sections of the text have been updated and expanded. In Section A (Students and the Law), you'll find a new chapter on Addressing Discriminatory and Exclusionary Discipline Practices. The additional three sections (Special Education and the Law, Teachers and the Law, and Schools and the Law) have been updated with recent case law and legislation. Many of the Handbook's 39 chapters have been written by authors who are former school leaders. Each chapter in this revision highlights the most pressing issues and provides practical recommendations, concluding with a case list and key words.

Instructors who purchase the text to use in their classes will be provided accompanying PowerPoint presentations that correspond with each chapter.

Last published in 2013, *The Principal's Legal Handbook* has long been the most popular K-12 title in ELA's bookstore. This new edition promises to be especially useful and timely.
